## **EXAMINER'S REASONS FOR ALLOWANCE**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 23, 2006 has been entered.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 13, none of the prior art of record teaches or discloses a controller configured to control the heater to selectively heat the collector even when the collector receives no radiation from the radiation source.

Regarding claims 14 and 32, none of the prior art of record teaches or discloses maintaining the collector at a substantially constant operating temperature by selectively heating the collector, even when the collector receives no radiation from the radiation source.

Mori reference teaches heating of the collector; however, Mori lacks selectively heating of the collector even when the collector receives no radiation from the radiation source.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
